

BOTTOM

Step one:

After writing your letter on your Ladybug card, cut around the outside of the card.

Step two:

Color this shell and cut along the solid lines. Make sure to cut the top shell in half along the center line of this circle. Align the two pieces of the shell over the bottom card. Make sure your letter is face up. Using the small gray dots for placement of the fasteners, have an adult help you attach the two separate pieces of the shell to your card.
